Product Description

For over 35 years, Kensington has been The Professionals' Choice for desktop productivity solutions. Through continual investment in advanced technology, Kensington has engineered the innovative SD5200T Thunderbolt 3 Docking Station for Windows and Mac. Whether you're a video editor, graphic designer, content creator, gamer or just want to simplify your 4K workspace the SD5200T Thunderbolt 3 Docking Station is a power user's solution for hyper-productivity. A single Thunderbolt 3 cable accommodates speeds up to 40Gbps while running two 4K monitors at 60fps and simultaneously providing up to 85W of power to your laptop.

Features

- Windows and Mac Compatibility allows this Thunderbolt 3 dock to work for both Windows and Mac users
- Thunderbolt 3 Technology allows a single port to provide up to 40Gbps of data speed, and connectivity to Thunderbolt-enabled devices, billions of USB peripherals, and UHD displays – all while supplying power
- 5K or 4K for Dual Monitors supports the resolution, contrast and color depth of Ultra HD via DisplayPort or HDMI (adapters sold separately)
- 85W Power Delivery to charge the host device (Host device must be designed to support Power Delivery for dock to provide charging)
- Productivity Ports connect to peripheral accessories via one USB-C 5Gbps port with 15W, two USB 3.0 ports (one of which is a 2.1A charging port), one DisplayPort++, one Gigabit Ethernet port, and 3.5mm headphone and microphone jacks
- Daisy Chaining allows connection for up to 5 additional Thunderbolt-enabled devices
- Kensington Security Slot protects your technology investment via easy implementation of a cable lock
- Zero Footprint Mounting provides the option to attach the dock to the back of any VESA® compatible external monitor to accommodate space-challenged workspaces (mounting plate (K33959WW) sold separately)
